Property Description

This 1,010 square meter homesite offers a rare opportunity to build an ocean view home just a short walk from Playa Blanca—one of Guanacaste's few white sand beaches and a hidden gem in the peaceful coastal community of Junquillal. The lot is less than five minutes on foot from the sand. Playa Blanca remains a virtually untouched bay with great snorkeling opportunities, mature trees providing natural shade, and a tranquil setting that embodies the essence of Costa Rica's Pacific coast. This is not a bustling tourist area—it's a retreat into nature, with the conveniences of fiber optic internet, quality road access, and strong community infrastructure just minutes away. From the second and third stories of a future home, panoramic ocean views will open west toward the Pacific. The topography of the lot is remarkably flat, which minimizes site prep and maximizes design potential. The entire property is usable—a rare characteristic in a coastal zone where slopes often limit buildable space.
